THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted and refurnished throughout with New Carpets, Furniture, Beds and Bedding and is now open for the reception of company under the charge of the subscriber

It is a large, commodious, and well furnished House situated on Main Street near the centre of the city and within a short distance of the Steamboat Wharves and the Depot of the P & K Railroad, to and from which Coaches are always in readiness to convey passengers

Its numerous advantages to strangers and particularly to those visiting the city on business or for pleasure renders it one of the most desirable Houses in the city

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers

By strict personal attention to the comfort of his guests the proprietor hopes to receive a liberal share of patronage

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A NICHOLAS, President Office, 70 Wall st

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers 233 Broadway, N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—3 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb.
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths 40 cts. a lb

For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J of about 500 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No 70 Wall street, New York

Thoroughness in Elementary Study—A Brief Notice of a Bangor Boy.

In a discussion between the Boston Traveller and the Boston Courier, which was commenced by the Traveller as a sly hit at what it deemed the extra conservatism of the Profs at Cambridge certain principles and facts are brought out by the Courier of general as well as local interest with our people, and to which we wish to call attention.

The fact stated upon which the discussion commenced was that

'Agassiz, the greatest of teachers as well as the most profound of investigators, made one of the strongest of his pupils study the bones of a turtle six months without looking at a printed page.'

The Traveller took exceptions to this fact as puerile but the Courier, regarding it from the stand point of Agassiz very forcibly and truly remarks that the great defect in all our systems of education is the want of thoroughness in teaching the elements of knowledge, that our higher institutions of education suffer from this defect in the lower and the evils of rash and hasty speculation and the prevalence of successful imposture now so rife among us, may be traced in no small measure to this fountain head. Professor Agassiz is striving to lay the foundations of scientific education deeper, and to make them more solid, by introducing better and sounder methods of teaching. It is his aim to have the student master the elements of the inquiry or the study, in the most absolutely thorough manner *first*—Nothing, it seems to us, can so strongly impress the fact upon teachers and friends of education generally, that the superficial hurrying over the elementary branches of education—the loading of the mere verbal memory for the time being without making acquisitions in the nature of knowledge by causing it to become a part of the mind, is a sad defect and short coming visible in all our schools—everywhere. It is worth something to have attention turned to this subject.

But we cannot pursue this point now, our present object being to give the facts stated in reference to the close study referred to in the first paragraph quoted and to say that they refer to James E. Mills of this city, son of P B Mills, Esq, who is now engaged in the eastern portion of this State as an assistant to Professor Agassiz.

The Courier says

The young man alluded to gave evidence, immediately upon joining the special class of Professor Agassiz, that he possessed a mind of unusual vigor and earnestness. He had been chiefly occupied with moral questions, and had not, as yet gained much acquaintance with the true method of investigating physical facts. He needed the discipline which these investigations are best suited to give. Understanding well the character and wants of his mind, and appreciating rightly his natural endowments, Professor Agassiz set him to work upon the frame of an individual animal where no ethical or aesthetical considerations could draw the observer away from the special object of the study, which was to train the senses to perceive distinctly and with precision, the relations of slightly different forms with reference to a complicated organism. It would be needless to say that the bones are the framework of such a structure, and that this framework is to a naturalist what the plan of an edifice or an order of edifices is to the architect who desires to have a standard by which he may appreciate different structures. Such a plan, such a framework, this young and promising student was set to study, at the beginning of his career as an investigator of nature. The result upon his mind was just this. After the six months of study, to which allusion was made by Prof Felton, he had learned to read the facts of nature so correctly and so rapidly, that in less than three years he was prepared to submit himself for examination in the Lawrence Scientific School, and after the most searching and protracted examination, covering the whole ground of Natural History and Geology, he won the highest honors in his department. In that school, diplomas are given only after the most rigid examination, and they are discriminated in three classes according to the result, by the *cum laude, magna cum laude*, and *summa cum laude*. The young man in question, who had studied the bones of a turtle six months, not only received the diploma *summa cum laude*, but in consideration of the extraordinary acquirements the examination manifested, the Scientific Faculty voted unanimously that an additional and exceptional mention of the result of his examination should be entered in his diploma. He is now entrusted with the important business of conducting a practical investigation of the Zoology of the Coast of Maine.

To make the story complete, it ought to be mentioned, that Professor Agassiz would not have subjected his pupil to this rigorous course of independent study, had he not discovered in him abilities of no common order. Others have gone through a similar training under the same eminent master, and all of them, with two exceptions, have become professors in colleges, and are now enthusiastically engaged in teaching their respective sciences, in different parts of the United States, in the spirit of the methods by which their own scientific genius was unfolded."

PUTNAM'S MONTHLY for September has been furnished us by Mr Chas Hight, West Market Square. It contains Beth Gelert—a ballad—with illustrations,—and a Journey in Africa—with illustrations, together with a large amount of other matter of interest. The editorial notes are well worth the price of the book.

PRICES OF NEGROES. Millions of money have been disbursed in Richmond during the past fifteen months for negroes, who have, during that time, commanded more exhorbitant prices than ever before. All negroes are sold for cash, which is supplied by means of Northern sight drafts, which are disposed of to the brokers. Enough of these sight checks are sold to supply the Richmond market with Northern exchange. Many sell now because of the very high price obtained. In proof of this it may be stated that, if market declines say $50 to $100 per head, the receipt of negroes is visibly affected. It is said, by those who assume to know that the increase of slaves more than counterbalances the number sent from the State.

The following statement of the ruling rates, (and which it is confidently asserted, are likely to prevail for some time to come,) is subjoined for the information of the readers of The South.

No 1 men sell readily for $1300 to $1400, something extra a shade higher. No 1 girls $1100 to $1200 (field hands). Likely girls (seamstresses) command from $1400 to $1500. Boys from twelve to fifteen years old, sell at $1000 to $2000. Carpenters command the small rates. Brick avers bring from $1500 to $1800. All others in proportion. These prices are for negroes free of defects, and sound and healthy. At the present time, however, it is safe to say that negroes, good or bad, command all they are worth.—*The South.*

FREE SUFFRAGE IN NORTH CAROLINA. Our State constitution provides that no one shall vote for a Senator in the State Legislature who does not own fifty acres of land. The constitution also provides that no amendment shall be made to that instrument unless a bill for that purpose shall have passed one General Assembly by a three-fifths vote of all the members, and the next General Assembly by a two thirds vote of the members, nor shall the said amendment even then be made, unless approved by a majority of the people, land holders and non landholders, at the ballot box. An amendment striking out this freehold qualification for a voter in the Senate, and extending the right of suffrage to all native and naturalized citizens who may have paid taxes, was passed by the three-fifths vote in 1856, was submitted to the people to be approved or rejected at the late election, and it triumphed by an immense majority.—*Raleigh Standard.*

SINGULAR BREACH OF PROMISE CASE. The Traveller states that within a few days a suit has been commenced by a citizen of Dorchester, against one of our most distinguished physicians and surgeons, for breach of promise of marriage on the part of his wife, who, before her marriage to her present husband was a widow her former husband having died at Rome a year or two since. The amount of damages named in the writ is $20,000 and it was duly served by attaching the defendant's property, when the necessary bonds were not forthcoming. The defendant and his wife sailed for Europe some weeks since, and are, as is supposed, in utter ignorance of the commencement of the suit. The defendant's agent has retained for him the services of Messrs Choate and Chandler. Should the case be pressed to a trial, it will probably come up in the Supreme Court.

FORMOSA SEIZED BY OUR GOVERNMENT.—The New York Times has a letter from its Hong Kong correspondent, stating that Capt J D Simms, of the United States Marine Corps, had been dispatched to Formosa, with instructions to hoist the American flag and formally take possession of the island. It is to be held as an indemnity for losses sustained by American citizens during the present war. The writer says the step has given the English "huge satisfaction." The Times, while respecting the source of this singular information, hesitates about giving full credence to it. The Island of Formosa lies about ninety miles off the south east coast of China, embraces an area of about 15,000 square miles, and contains over two millions of Chinese inhabitants, besides an unknown number of natives, who inhabit principally the eastern portion of the island.

MORALITY OF WHALE SHIP CAPTAINS. The following letter appears in the last number of the Journal of Missions, and is written from Ascension Island by L H Gulick, a missionary stationed there. It is a small island, six hundred and eighty five miles northwest of St Helena, lying in the track of ships on their passage home from the east, where they call for refreshments, it is celebrated for its fine turtles.

'You may not be fully aware that most of the ships which you are interested in sending to this ocean, are the most disgusting of moral pest houses. Not only are the sailors given to every crime, but the captains, with nearly all their officers, practice in these seas vices similar to those which brought destruction on Sodom and Gomorrah. Several captains whom Christians have engaged to take charge of their vessels in the Pacific have thrown deadly obstacles in the way of the missionary work on this island. Your property and your agents have been active in promoting the basest intemperance. Some of your ships sell distilled spirits here on every visit, and some buy it.

Your ships have, to our harbor, been so unblushingly peopled, from the forecastle to the cabin, with those who only gather there for sin, that I have visited them with the deepest loathing, and what shall I say of the emotions of my family, as we have been obliged to pass in full view of such scenes? Some of your captains have assisted in the demoralization of some of our most promising pupils, and most of them stand as far aloof from the missionary and his cause as possible.

Nearly all your ships bring to these shores muskets and powder, thus furnishing instruments to the passions of this people, for murdering women and children in so called war.

One hundred and twenty-eight vessels have touched at Ascension Island since the establishment of this mission, in September, 1852, and the digits would more than represent the number of captains who proved themselves virtuous.

A professional brother of Boston has forwarded to the Jersey City "retired physician, whose sands of life have nearly run," a cask of fine beach sand to suply the vacuum.

LOCAL AND MAINE NEWS.

It is thought that the wheat crop in this vicinity is not damaged by the weevil to so great an extent as has been generally supposed—The wheat was well advanced before this insect commenced its ravages.

PRISONERS.—Yesterday five persons left this city in the steamer M. Sanford, with an escort—each rejoicing in the possession of a pair of iron bracelets. They were to be taken to State Prison in Thomaston. Their names were,

J Q A Gove,	sentenced for	10 years,	
B D Ricker,	do	do 4	do
Wm Caswell,	do	do 4	do
James S. Glavins,	do	do 5	do
Charles Miller,	do	do 2	do

It is hoped they will come out better and wiser men.

COUNTY CONVENTION.—The Sagadahoc Republican County Convention will be holden at Bath, on Wednesday, August 26th, at 10 o'clock A M.

Since last week, we have conversed with several farmers from different towns, and some of them inform us that they will save a portion of their wheat crop—say nearly half.—*Clarion.*

GREEN CORN.—The editor of the Maine Farmer is luxuriating in green corn, ripe tomatoes, &c, sent in to him by several of his subscribers. Quite a change from his usual diet of sawdust pudding.

REPUBLICAN CLARION.—Friend Littlefield, the heaviest and fattest editor in New England, makes a loud call upon his subscribers to increase his list. He says that there has been but one year in the sixteen years which he has published the paper, when the receipts from the paper have been equal to the expenses, and that he has been obliged to depend upon his job-work for a living. This ought not so to be. There is no reason why local papers should not be patronized, and *well* patronized too. Many people take foreign papers rather than their own, and thus lose many of the most interesting local items and the domestic news. There is not a county in the State that ought not to support two papers, and many of them, of course, can and do support more than that number. Encourage your own papers and they will be enabled to improve and grow until they can successfully compete with the papers from other States.

A Teachers' Convention for the County of Sagadahoc, will be held at Topsham during the week commencing Sept 21st. The Convention for Lincoln county will be held at Thomaston, during the week commencing Sept 28th. The people of that place have taken much interest in the subject, and accommodations for a large number of teachers will be provided.

AN OLD VETERAN GONE.—Mr Ebenezer Dean, of Madison, departed this life June 23d, aged 99 years 6 months and 19 days. He was born in the vicinity of Boothbay. He was also a pioneer of Somerset county. In the war of the Revolution, at his country's call, he left the plough in the furrow, and joined the continental army, to fight the battle of freedom. After the struggle was over, he returned to Madison and resumed the practice of husbandry. He was blest with two wives and twenty-six children. His widow and thirteen children still survive. He was a most remarkably robust man, not having experienced a single fit of sickness during his whole life, and died from the infirmities of age. He was a professor of the Christian religion. A marked respect was paid to the remains of the old soldier, and his friends were deeply grieved at their loss. The patriotism of our fathers was unsullied by mercenary motives, unlike much of our modern patriotism—there was none of the filibustering element mingled with it, but the love of liberty glowed upon the altar of their hearts, which nerved their soul and hand to duty. They are almost gone! The feeble few that linger will soon pass away and leave nothing but an eternal monument in each American heart to their sacred memory.—*Clarion.*

MAINE SCENERY AND MAINE MEN.—We copy a few extracts from a letter dated Livermore, Aug 13, 1857, published in the Maine Farmer. The writer pays a merited tribute to the varied and beautiful scenery of Maine.

It is useless to talk of the scenery of any part of Maine as being superior to any other part. The tourist knows that it is everywhere grand and beautiful. When in Livermore, on some of the hill tops over which the road passes, and I look off upon its panorama of hills and vales, dotted over with groves, cultivated fields green pastures, orchards, gardens, farm houses, school houses, and villages, with lakes here and there reposing in the sunlight, I think that nothing can excel this. When among the grander hills of Oxford, where summits approach the clouds, and where valleys laugh with verdure down to the silvery streams which wind among the hills, I am prone to say, no beauty like thine. When in Franklin, gazing on the broad intervales of the Sandy River, studded here and there with groves of elm and maple, the river stretching away as far as the eye can reach, resembling a thread of silver drawn over a sea of verdure, then it seems that Franklin excels all the rest, and when away upon some summit in upper Penobscot or Aroostook, and I look out upon the interminable forests of that portion of Maine, with Katahdin frowning upon them, *that* seems to be the grandest view of all! Verily, God is everywhere, manifesting his power, goodness and wisdom, in the greatness and beauty of his handy-works.

Having been invited to spend the Sabbath in this town, I enjoyed the hospitality of the families of the Hon Ruel Washburn and Israel Washburn, Esq. These gentlemen were among the earliest settlers of this town. The town was owned originally by Dea Elijah Livermore, who settled here and cleared a large farm. Some of his descendants still reside here. Senator Hamlin and Hon E L Hamlin, of Bangor, are his grandsons. The world knows the fame of the "three Washburns," who are the sons of Israel Washburn, Esq. Three other brothers of the same family do honor to the name. Bishop Soule, of the Methodist Church, is a native of Livermore.—Other natives of this town are in the sunny South, at the West, in Boston, in Bangor, and elsewhere, eminent in the departments of life in which they are engaged. The pure air of their native hills, the active habits acquired by a youth of industry, and, above all the nurture and admonition which they received from their excellent mothers, were the elements which made them great men.

Down east pearls are quoted in the Boston markets at *three cents* a peck.

PHOENIX AT NAHANT. The Post has another letter from J. Phoenix, now at Nahant. He notes the following characteristics

"Our society is composed of people from all parts of the Union, Bostonians, social, affable and particularly kind and attentive to strangers, Western people, cool, *distingue*, and difficult of access, and Southerners lively, bustling, but close, calculating and abstemious."

The following intelligence is not without fashionable interest

"'The Double Eye Glass Club,' (D I G C they place after their names,) are flourishing, two of them have improved so that they can see through their glasses nearly as well as they can without them. It is quite refreshing to see a member take down his glass to read the morning papers, and the haste with which he replaces it if surprised by an outsider. A friend of mine named M——, from New Orleans, who has always had a taste for fashionable life, and in fact has nearly starved himself to death to improve his figure, being anxious to join the club, went to Boston yesterday for the purpose of procuring the tools. Entering a fashionable jewelry establishment he made known his wishes, and a box of double eye glasses was placed at once before him.—'What focus would you prefer, sir?' inquired the shopkeeper with immense politeness—'*Window glass,*' replied M, solemnly, 'I'm not near sighted, sir, I'm stopping at Nahant.' 'Oh, exactly, said the jeweller, and he fitted out his customer with great celerity. M says he is afraid it won't work, the instrument pinches his nose to that extent that he has acquired a nasal pronounciation, and it is painful to him to bid his friends 'Good bordig.'"

THE TIRADE AGAINST HOOPS. The folly opposition to the prevailing hoop skirt fashion has reached the pulpit, and called forth remarks to their congregations from preachers. Recently the Rev Father Raffner of the German Catholic Church in Brooklyn, N Y, animadverted on the enormity of the hoops by which his fair auditory were encircled. The Rev gentleman, we are told, complained, that though his audience filled the same superficial area in the church as before this obnoxious fashion was introduced, yet he believed there were not more than half as many people present, a comparatively small number of hoops sufficing to fill the church, and thus compelling others to stay away for want of room.—He observed that it was not for him to dictate to them the style of dress in which they should array themselves on other occasions, but he must request that they would come to church, at least, without such a superabundance of crinoline as to compel the absence of other people.

A gamekeeper on an estate near Lochaber, who had been annoyed by the depredations of foxes, discovered a kernel in a glen at the side of a small loch. While watching one evening for the appearance of the tenants, he observed a brace of wild ducks floating on the loch, in a little while a fox was seen approaching the water side with cautious steps, on reaching it, he picked up a bunch of heather and placed it in his mouth, so as to cover his head, then, slipping into the water, and immersing all but his nose, he floated slowly and quietly down to where the birds were quacking with delight in fancied security, seeing nothing near them but a bunch of weeds. In due time he neared the ducks, dropped the heather and seized one of them, with which he returned to the lochside and was making off to his young with his prize, when the keeper, who had noted all his movements, closed them by the discharge of his double barrel gun.

LAWYERS. It is stated that about five per cent of the people of Texas is made up of lawyers. At the last session of the department of Cumberland University, at Lebanon, Tenn, there were 170 law students.

In Europe a similar abundance is observed. It is stated, for instance that the number of law students is at present so great in Prussia, that the Minister of Justice has thought it advisable to address a circular to the rectors of public schools, directing them to warn their pupils and the parents or friends of the latter that the legal career is on the whole not a profitable one in Prussia, and that those young men who possess no private fortune would do well to choose another.

REV. DUDLEY A TYNG'S SUCCESSOR IN PHILADELPHIA. The Church of the Epiphany at Philadelphia has procured a new pastor, Rev W O Prentiss of South Carolina, in the room of Dr Tyng, who was dismissed last fall for preaching against slavery. The reverend gentleman who takes the place of Dr Tyng, according to one of our exchanges, is a slaveholder from a district which, by the census of 1850, contains a white population of 7103, and a slave population of 31 771. Among the whites there are 723 who cannot read or write.

AMERICAN MACHINERY IN THE EAST INDIES, ADVANTAGES OF ADVERTISING. Messrs Bacon & Hubbard, machinists, of Boston, recently received an order from Penang, in the East Indies, for six turning lathes, with all the necessary machinery and improved tools. Their address was obtained by the company who gave the order *from an advertisement in the Boston Journal.* While such an order is a testimony to the reputation of American machinists, it forcibly illustrates the advantages of advertising.

LEGITIMATE WORKING OF AN ILLEGITIMATE DECISION. *Washington, Aug. 20th.* The general land office to-day decided against the preemption claim of a colored man to 360 acres of land in Wisconsin, taking the ground of the Court in the Dred Scott case that a negro is not a citizen. This decision applies to other similar cases pending.

In addition to the regular list of Premiums liberal minded gentlemen have generously contributed funds to be distributed in premiums for best skill manifested by Ladies in riding on horseback. Also for *Grand Trotting Contest,* a purse of $200 to the best trotting entire Horse, Gelding or Mare, raised and always owned in Maine, best two in three in harness. Also, $200 for best trotting entire Horse, Gelding or Mare wherever raised or owned, best three in five in harness.

The Society have offered over $1000 in premiums, to the several classes and grades of Horses and also $1000 for other classes of Farm Stock.

The fare on all the Railroads and Steamboats in the State, connected with the routes to Bangor, will be put down to half price commencing on Saturday morning previous to the Show, and ending Saturday evening next after.

Per order of the Trustees.

Sailing of a California Steamer.

NEW YORK, Aug 20

The steamship Central America sailed today with $1,800,000 in specie and the California mails and a large number of passengers

Peter Cooper Esq President of the American and Newfoundland Telegraph Company, whose lines extend from New York to St John N F has generously tendered the free use of his wires to the Press on the occasion of the arrival of the Atlantic cable, for the transmission of any communication relative thereto

Indian Hostilities.

DUBUQUE, 20th

Indian troubles have again broken out between the Sioux and Chippewas On the 1st inst. a party of Chippewas was attacked a detached party of Sioux near Lake Pepin, and took 30 scalps, and returned down Red River

The Missouri Democrat—The St Louis Times of August 19th says

At the time of our going to press every county in the State has been heard from officially or otherwise, except two—Oregon and Shannon Robinson is 80 ahead by the Anderson count, and 280 ahead by the count of friends

Shannon only polls about 50 votes, and could not have gained 280 majority for Buchanan It is many Democratic votes The chances are in favor of Robinson by less than 100 majority

The Intelligencer of Saturday says Robinson is certainly elected, while he Republican, though do not admit the defeat of Stewart, 3rd is very doubtful

Fort Ridgely Despatch—We learn that Mr Sumner, son of Walton fell backward from a scaffold he was building on Saturday afternoon striking his head and shoulders upon the ground with such force as to injure the spinal marrow from the effects of which he died the next day Mr Rupp was a stout, rugged man weighing perhaps 65 years of age

Sioux City Times

Sioux Whisper—A letter from Walden's Ridge, Tennessee says—The wheat crop is unusually good but much of it was so badly sacked when it came in the field that all who eat the flour have made to vomit Dogs will not eat the bread from it, and even hogs are sick after eating it I enclose a sample Such wheat has never been known here for more than a quarter of a century and will have to seek a market elsewhere

The papers received by the last steamer announce the demise of Lieut Col Thorndike and excellent man Lieut Col D The eminent Christian Philanthropist and universally beloved officer has gone to his reward after a long and painful illness He had attended the Legislature and his neighbor, who for the same time would have voted for him, and for the Democratic candidate who was elected by a majority of one A the election a United States Senator, a Democrat was chosen by a majority of one and when the question of war with England was before the House it was declared by a majority of only one—*Historical Magazine*

PIANOS—PIANOS

IT is evident to all who hear *Edwards & Co's* PIANOS that Checkerings are *not ahead* of all others It is also evidence in this case that Edwards & Co's have taken the *first* premium over all competitors wherever they have exhibited them, including the Fair at Portland in 1854, where they took the first premium over the celebrated Checkering, for Pianos having the best tone and action

I have an assortment of 6, 6½ and 7 octaves, now at my Rooms, where I invite all (whether purchasers or not,) to see them

American & Foreign Patents,

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S Patent Office Washington under the Act of 1837)

No. 76 State Street, opposite Kilby St., BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States, also, in Great Britain France and other foreign countries Caveats Specifications Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able, beyond question to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors

Testimonials

During the time I occupied the office of Commissioner of Patents R H EDDY Esq of Boston did business at the Patent Office as solicitor for procuring Patents—There were few if any, persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE
Late Commissioner of Patents

[From the present Commissioner]

"August 17 1855 —During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor He is thoroughly acquainted with the law and the rules of practice of the Office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse CHARLES MASON

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (18 7) Licentiate of the Hall (18 4) and 23 years Medical Referee &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions Nervous Irritability, Premature Decay, Loss of Virility Impotency and all diseases arising from early indiscretion

This excellent Remedy, discovered by the world renowned DR CULVERWELL in London the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to medical surgical or otherwise to arrest and to cure this awful disease A single trial will convince the most sceptical that a safe and perfect cure may now be had at the expense of a few dollars which up to this date could not be procured for all the gold of the world The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by *one* person would through recommendation, result in an eventual sale to many

DR CULVERWELL S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land to whom every facility will be afforded for testing its wonderful efficacy in their private practice

Full and plain directions for all the different varieties of the complaint accompany Dr Culverwell's REGENERATOR-REMEDY so as to enable every one to treat himself or herself successfully Price $2, on the receipt of which it will be forwarded *by mail* free of postage, to any part of the country Address, Messrs BRIDGMAN & CO, Druggists and Apothecaries, 158 Grand St., New York, Sole Agents for the United States and Canada. A MEDICINE THAT NEVER DEBILITATES.

DR SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine answering the purposes of any cathartic without the debilitating effects experienced from most purgatives It acts slowly and gently but surely moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions

The Invigorator cures Sick Headache Take one or two teaspoonful at the first attack and it will soon disappear For an overloaded stomach or when food rises or sours take the Invigorator after eating and it will not prove disagreeable or oppressive For Heartburn Palpitation or Difficult breathing take a tea spoonful once or twice daily For Loss of Appetite Languor Listlessness the medicine is invaluable It will restore the appetite and make the food digest well Nightmare take a teaspoonful on retiring and the demons of dream land will all be fairies After eating a hearty dinner take a dose of Invigorator and it will relieve all oppression or fullness The Invigorator is a Liver Remedy of unequalled virtue acting directly on that organ curing Dyspepsia Jaundice Bilious Attacks Dysentery Piles Worms and all Female Obstructions for which it has no equal

We know there is nothing now before the American public prepared with such skill by a scientific man particularly for diseases of the Liver as Dr Sanford s Invigorator or Liver Remedy It has attained a reputation second to no other article in the world simply because it rests on its own merit The evidence all by trial that it is all that its proprietors claim it to be If any of our readers are suffering in any such diseases as are described in Dr Sanford s advertisement we know of no remedy that will so surely cure them as the Invigorator

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in diseases of the Liver Stomach and Digestive Organs It came to us with many testimonials in its favor that we have noted its effect in some of the worst cases Constitutional debility can entirely changed by it and in every instance the effect was to relieve or give a permanent cure Dr Sanford s Liver Invigorator is what we refer to We always have been credulous about new patent medicines but we are convinced that this medicine ... recommendations it has ... troubled with Indigestion Debility or Bowel Complaint to get a bottle and try it ... relief will be experienced

Blessings to the Invalids will use Dr Sanford s Invigorator for it will relieve them of their pains ... one bottle—if it does not benefit them we are mistaken

DR SMITH'S

SUGAR COATED PILLS!

Prepared and put up by the
New York College of Health.

The most celebrated Medicine in the World

Recommended by the principal Physicians in all our Cities and by all who become acquainted with their merits throughout the world

There are living witnesses in almost every town village and hamlet throughout the country who unhesitatingly say DR SMITH S SUGAR COATED PILLS have saved my life

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested and many eminent Physicians in the United States use them in their practice

Dr J M STURTEVANT of Lowville N Y a practical physician says I consider the Sugar Coated Improved Indian Vegetable Pills as an excellent medicine, and use them in my practice

Dr McVICAR of Boonville Oneida Co, N Y says Say to your Agents I consider them an excellent Pill and use them in my practice

If the Blood becomes impure it is traced to stoppage of the natural drains of the system viz of the bowels—the lungs, kidneys and skin—The blood and intestines must relieve themselves of all their worn out particles and poisonous humors which must go through the channels that nature has designed

Dr. Smith's Sugar Coated Pills

Possess this quality to the fullest Extent

Dr. McLANE'S

CELEBRATED

VERMIFUGE AND LIVER PILLS.

Two of the best Preparations of the Age.

They are not recommended as Universal Cure-alls, but simply for what their name purports.

The VERMIFUGE, for expelling Worms from the human system, has also been administered with the most satisfactory results to various animals subject to Worms.

The LIVER PILLS, for the cure of LIVER COMPLAINT, all BILIOUS DERANGEMENTS, SICK HEADACHE, &c.

Purchasers will please be particular to ask for Dr. C. McLane's Celebrated VERMIFUGE and LIVER PILLS, prepared by

Fleming Bros

SOLE PROPRIETORS, Pittsburgh, Pa., and take no other, as there are various other preparations now before the public, purporting to be Vermifuge and Liver Pills. All others, in comparison with Dr. McLANE's, are worthless.

The GENUINE McLane's Vermifuge and Liver Pills can now be had at all respectable Drug Stores.

ANCIENT AND CELEBRATED

JAPANESE LIFE PILLS.

NATURE S OWN REMEDY

A positive Cure for Liver Complaint and Bilious Disorders Dyspepsia Rheumatism Scrofula Cutaneous Diseases ... Ague Costiveness Piles Dysentery and Diarrhoea Worms Suppression of the Menses Nervous Debility, &c, and a sure preventive to all

PULMONIC AFFECTIONS

We offer the ANCIENT JAPANESE LIFE PILLS on a more extensive scale after we have tested them in the worst forms of disease and after having been urged to do so by eminent physicians who have tried them to their satisfaction Performing cures where every other remedy had failed we feel it our solemn duty to spread the glad intelligence to every family of the globe *They purge the system thoroughly of all corrupt humors penetrate and purify the vital fluids and the corrupt secretions are replaced with rich healthy blood Parts that were even decaying until diseases are restored to a healthy vigorous action and disease eradicated as if by magic ... leaving the system in a ... condition, and less predisposed to contract disease again of whatever kind* Possessing such penetrating and healing virtues their success must be inevitable WE KNOW IT We can read it in the now glowing features of the once pale and prostrated patient we can read it in the friendly grasp of the father s hand and in the mother s warm tears of joy as they behold their darling child snatched from the clutches of death by their powerful agency we can read it in the young man s gayety and in the old man s vigor and God bless you we can read it in the husband s and wife s gratitude and in the children s prattle we can read it away out upon the bosom of the ocean in the sprightly tread and invigorated system of the poor marriner Yes, and we sometimes fancy we can almost read it far up in the blue canopy of heaven in words of living fire —DISEASE IS VANQUISHED—THE TRIUMPH IS COMPLETE

These ANCIENT PILLS are also an *invaluable* remedy for females suffering from suppression of the menses the cause of so many declines and female weaknesses The various diseases that attack children are quickly banished by their healing qualities

The PILLS are sent by mail from the Proprietor only on receipt of the price The postage in the United States not over 3000 miles is fifteen cents on five boxes which must be inclosed in money or stamps If we have no agent in your place send to us by mail
